

Bonjour Monsieur Veraart,

We had an excellent time in this lovely home that is extremely well-equipped and that does an excellent job of mixing the modern with a more traditional charm. The location is very calm and relaxing and we had lovely weather which allowed us to fully take advantage of the pool which was also perfect for our handicapped daughter who was able to walk the length of the pool. The temperature of the water was perfect and the electric pool cover kept the pool water at a good temperature and kept it clean. Your pool cleaner/landscaper was very professional and gave us great recommendations for the region.

The kitchen, as well as the cooking utensils, had everything we needed and were of very high quality. Same goes for your BBQ which was easy to use and very pleasant with the little terrace next to it where we were able to continue our evenings.

We also slept extremely well thanks to the excellent mattress and bedding and the calmness of the property.

The sunroom was also very pleasant to watch TV in and the air conditioning was an added bonus 😊

Regarding the surrounding area, the town of Sigoulès was great for all of our daily shopping needs.

Bien cordialement,
Alison Gilman
